Excerpts from Beloved God Harmony's Discourse

— July 28, 1939 —

One of the great needs of the world today is Harmony, and there is no greater means in the world of producing it than through Music of the right kind. Since this Music came from Our Octave of Light, then it is the beginning of that Music which shall render Magnificent Service to this Earth. . . . Our Beloved Frederick, few have within them your possibilities, and as you hold steadfast to your "Presence," the "Mighty I AM," will We be able to assist you into limitless activities. Upon this Novachord may you find, under Our Direction, the magnificent combinations that are there—which are seldom known—that will speak their tones of Authority and Healing. I congratulate you. Thank you so much. . . .

Beloved Ones, for just a few moments, will you close your eyes, direct your attention to your "Mighty I AM Presence" above you that beats your Heart, and allow Me to assist you to release and charge into your world—your mind, body, feeling and world of action—That which will be sustained there. You, who for any reason desire Healing, may you accept and qualify the energy thus.

— SILENCE —

It is well! Thank you, so much! . . .

As you have observed in all conditions of Life, whether it be in your homes, your business, or your means of entertainment, how wonderful it is to rest an hour in the embrace of delightful Harmony. And yet, for a time, our young

people, I do not think they loved it, but they were interested for a time in the jazz and swing music, little dreaming the dangerous thing it was to them—for it stirs everything in the lower nature of mankind into action. Sometimes individuals do not see that for weeks or months, yet it is so. . . .

It is a long, long time, Beloved Ones, Children of the Light and friends who are here, that We have waited and watched and tried to bring together those whom We could hold within Perfect Harmony—to release these Almighty Activities which mankind needs so much. After We have reached a certain point in the assurance of the Victory of Light for America, then through many there will be released magnificent things in Music; but just yet We must hold this within Our Governing Power until that Release can come. . . .

For the first time since the old composers of Europe brought forth their music, We have been able to begin this Great Dispensation which—from the Harmonies produced—will release to the Earth the most amazing results that mankind has ever witnessed!
